TereoPneuma Retains Sheppard Mullin Richter & Hampton LLP as Legal Counsel

SAN DIEGO, CA July 9, 2014 - TereoPneuma, Inc., a CA based company developing the ReDe Mask™, today announced it has retained Sheppard Mullin Richter & Hampton LLP as legal counsel in all intellectual property matters.

Sheppard Mullin Richter & Hampton LLP is a full service AmLaw 100 firm with more than 600 attorneys in 15 offices located throughout California and in Chicago, New York, Washington, D.C., Beijing, Brussels, London, Seoul and Shanghai. The firm's California offices are located in Century City, Los Angeles, Orange County, San Francisco, Del Mar, San Diego and Palo Alto. With expertise in a variety of practices, including labor law, antitrust and finance, Sheppard Mullin Richter & Hampton LLP has grown aggressively in recent times. Via acquisition and proprietary expansion, the firm has added a number of niche practices in the 21st century, servicing such clients as Disney, DHL, Guinness and Georgia Pacific.

"We are pleased to announce the involvement of Sheppard Mullin Richter & Hampton LLP as TereoPneuma evaluates its strategic options in developing cutting edge medical instruments. Their expertise will be instrumental in helping us capture value from our innovations in the field of anesthesiology." said Warren G. Young, PhD, President/COO of TereoPneuma, Inc.

About TereoPneuma

TereoPneuma is a privately held medical device company in San Diego, CA whose mission is to develop novel high technology products in the field of anesthesia. TereoPneuma is Greek for "observe breathing". TereoPneuma's first product - the ReDe Mask™ - is a disposable, single use oxygen face mask and respiration monitor that simultaneously provides supplemental oxygen to patients while also detecting exhalation and displaying a visual signal of each exhalation. Further, it provides a visual warning signal when no breath is detected for 7.5 seconds, and a more vivid visual warning signal when no breath is detected for 20 seconds. Detailed information on the Company is available at www.tereopneuma.com.
