TereoPneuma Selected as a Finalist for CONNECT's 30th Annual Most Innovative New Product Awards

SAN DIEGO, CA September 14, 2017 – Today, TereoPneuma announced that its ReDe Mask™ has been selected as a finalist in CONNECT's Most Innovative New Product Awards. CONNECT, a premier innovation company accelerator in San Diego that creates and scales great companies in the technology and life sciences sectors, continues its thirty-year tradition of celebrating innovation leaders in the local San Diego community.

The ReDe Mask™ is a disposable, single use oxygen face mask and respiration monitor that simultaneously provides supplemental oxygen to patients while also detecting exhalation and displaying a visual signal of each exhalation. A three-color LED signaling system is used to indicate breathing events. A green indicator illuminates with each breath when the respiration rate is above 8 breaths per minute. A yellow indicator similarly illuminates with each breath when the respiration rate is 3 to 8 breaths per minute. A red indicator flashes rapidly when the breathing rate is less than 3 breaths per minute.

"The ReDe Mask™ is our inaugural flagship product, designed from the ground up to ensure that no patient goes unnoticed if breathing is impaired or arrested. We are honored to be recognized as a finalist in this prestigious competition." said Dr. Warren G. Young, President and COO of TereoPneuma, Inc.

Finalists were selected in the following ten categories: Cleantech, Sustainability, and Energy; Defense, Aerospace, and Transportation; Information Communications Technologies; Life Science Diagnostics and Research Tools; Life Science Products, Clinical Stage; Medical Devices; Robotics and Unmanned Vehicles; Software and Digital Media; Mobile Apps; and Sport and Active Lifestyle Technologies.

The 2017 Most Innovative New Product Awards presentation and dinner will be held on the evening of November 30 at Hyatt Regency La Jolla at Aventine, 3777 La Jolla Village Drive, San Diego, CA 92122. Each of the Finalists will be featured in the Innovation Showcase and the Winner in each category will be announced live during the dinner.

For a complete list of winners and additional information, please visit the Most Innovative New Product Awards Website.

About CONNECT

CONNECT is a premier innovation company accelerator in San Diego that creates and scales great companies in the technology and life sciences sectors. By creating an environment in which entrepreneurs and C-suite executives have access to the people, capital, and technology resources they need for success, CONNECT has assisted in the formation and development of more than 3,000 companies since 1985. Widely regarded as one of the world's most successful organizations linking entrepreneurs and C-suite executives with the resources they need for the commercialization of innovative products and services; our program has been modeled in more than 50 regions around the world.

About TereoPneuma

TereoPneuma is a privately held medical device company in San Diego, CA whose mission is to develop novel high technology products in the field of anesthesia. TereoPneuma is Greek for "observe breathing". TereoPneuma's first product - the ReDe Mask™ - is a disposable, single use oxygen face mask and respiration monitor that simultaneously provides supplemental oxygen to patients while also detecting exhalation and displaying a visual signal of each exhalation. Further, it provides a visual warning signal when no breath is detected for 7.5 seconds, and a more vivid visual warning signal when no breath is detected for 20 seconds. Detailed information on the Company is available at www.tereopneuma.com.
