TereoPneuma Selected as a Winner of CONNECT's 30th Annual Most Innovative New Product Awards

SAN DIEGO, CA November 30, 2017 – Today, CONNECT, a premier innovation company accelerator in San Diego that creates and scales great companies in the technology and life sciences sectors, announced the winners of its 30th annual Most Innovative New Product Awards. The prestigious competition, which begins each year in the spring and culminates in the awards ceremony at the end of the year, is an annual signature event at CONNECT that recognizes and lauds stars of innovation and their latest groundbreaking products.

The ReDe Mask™ is a disposable, single use oxygen face mask and respiration monitor that simultaneously provides supplemental oxygen to patients while also detecting exhalation and displaying a visual signal of each exhalation. A three-color LED signaling system is used to indicate breathing events. A green indicator illuminates with each breath when the respiration rate is above 8 breaths per minute. A yellow indicator similarly illuminates with each breath when the respiration rate is 3 to 8 breaths per minute. A red indicator flashes rapidly when the breathing rate is less than 3 breaths per minute.

“A patient should never experience harm because no one noticed that he or she has stopped breathing. We believe that the ReDe Mask™ will solve that issue.” said William J. Mazzei, MD, CEO of TereoPneuma, Inc.

“We are honored to be recognized by our peers in the industry. The ReDe Mask™ is an important technology that all healthcare providers should use on patients undergoing procedures that require sedation.” said Dr. Warren G. Young, President and COO of TereoPneuma, Inc.

Winners were selected from the following categories: Cleantech, Sustainability, and Energy; Defense, Aerospace, and Transportation; Information Communication Technologies; Life Science Diagnostics and Research Tools; Life Science Products, Clinical Stage; Medical Devices; Mobile Apps; Robotics and Unmanned Vehicles; Software & Digital Media; and Sport & Active Lifestyle Technologies. Each of these winners was recognized November 30, at the 2017 Most Innovative New Product Awards presentation and dinner.

About CONNECT

CONNECT is a premier innovation company accelerator in San Diego that creates and scales great companies in the technology and life sciences sectors. By creating an environment in which entrepreneurs and C-suite executives have access to the people, capital, and technology resources they need for success, CONNECT has assisted in the formation and development of more than 3,000 companies since 1985. Widely regarded as one of the world's most successful organizations linking entrepreneurs and C-suite executives with the resources they need for the commercialization of innovative products and services; our program has been modeled in more than 50 regions around the world.

About TereoPneuma

TereoPneuma is a privately held medical device company in San Diego, CA whose mission is to develop novel high technology products in the field of anesthesia. TereoPneuma is Greek for “observe breathing”. TereoPneuma's first product - the ReDe Mask™ - is a disposable, single use oxygen face mask and respiration monitor that simultaneously provides supplemental oxygen to patients while also detecting exhalation and displaying a visual signal of each exhalation. Further, it provides a visual warning signal when no breath is detected for 7.5 seconds, and a more vivid visual warning signal when no breath is detected for 20 seconds. Detailed information on the Company is available at www.tereopneuma.com.
